

## Quiz: Learning to Program in JavaScript

### Programming Exercise Guide

Before attempting this quiz you should write the following JavaScript programs.

#### Problem 1

Write a program to draw a square 200 pixels by 200 pixels that looks like this square with colors red (red value 255), green (green value 255), blue (blue value 255) and magenta (red value 255 and blue value 255). All other RGB values are set to 0.

#### Problem 2

Write a program to draw a square 200 pixels by 200 pixels that looks like the square below with colors red (red value 255), green (green value 255), and blue (blue value 255). All other RGB values are set to 0.
